Terms of Service for SMS Communications

Dear Customer,

One of the features of our WendtOS platform is the option to receive sms or “text messages” to alert you of specific events occurring with your Wendt supplied equipment.

Upon signing a License and Subscription agreement with us to subscribe to this platform you will be provided with unique secure credentials to access the application which includes the ability for you to enable (opt in) or disable (opt out) of the sms features provided within. See figure 1.0 for where this is found inside the application.

Profile Password Email notifications SMS notifications Preferences

SMS notifications is activated for you organization. Configure when you want to be notified through a SMS.

Notify on favorite machines
SMS notifications only work for favorite machines

Figure 1.0

You will not receive any other automated sms messages from Wendt Corporation without your explicit consent.

If for any reason you are unable to successfully perform these functions within the application, please contact our Technical Support team at 716-391-1200.

Thank you for your business.
